SREENISH HARI

FLUTTER DEVELOPER | JUNIOR SOFTWARE DEVELOPER

7907119107 | sreenishhari123@gmail.com | Kerala, India
Portfolio: sreenish-portfolio.vercel.app | GitHub: github.com/Sreenu-123

PROFESSIONAL SUMMARY

B.Tech Computer Science Engineering student with hands-on project experience in Flutter application development, Python backend APIs and React-based web projects. Built and integrated Flutter screens with a FastAPI and PostgreSQL backend. Seeking a Flutter Developer Internship or Junior Developer role.

TECHNICAL SKILLS

Languages: Dart, Python, JavaScript
Frontend & Mobile: Flutter, React, HTML, CSS
Backend & Database: FastAPI, REST APIs, PostgreSQL
Authentication: Firebase Authentication, JWT
Computer Vision: OpenCV, YOLO, MediaPipe
Tools: Xcode, Git, GitHub, VS Code, Android Studio

PROJECTS

FitNovaX | Fitness Application

Technologies: Flutter, Dart, FastAPI, PostgreSQL, JWT

- Developing a gamified fitness app with workout planning and tracking, nutrition guidance, progress tracking and user engagement features.
- Built core Flutter screens and connected the app to a custom FastAPI backend with PostgreSQL for saving and retrieving data.
- Backend authentication uses JWT; the application is under development.

ASHWA AI | Horse-Riding Training Application

Technologies: Flutter, Python, FastAPI, OpenCV, YOLO, MediaPipe

- Working on an application concept that explores computer vision to support horse-riding training and movement analysis.
- Exploring pretrained horse-detection and pose-estimation approaches using YOLO and MediaPipe; project is in development.

Paisa Tracker | Personal Finance Tracker

Technologies: React, JavaScript, HTML, CSS, localStorage

- Built a frontend-focused finance tracker for recording and reviewing income and expenses, with browser localStorage for client-side persistence.

IRONVAULT | Gym Website

Technologies: React, Vite, CSS

- Developing a responsive, frontend-focused gym website with a premium dark visual design.

EDUCATION

B.Tech, Computer Science Engineering | Graduation: 2027
College of Engineering Attingal
